Overview of GoReact

GoReact is a robust video tool that allows for many different applications and methods of feedback.

- Individual student and group recordings
- Commenting on pre-recorded videos
- Peer reviewing and commenting
- Real-time feedback during live sessions
- Time-coded feedback with text, video, and audio
- Rubric assessment
- AI generated feedback

It is ideal for any skills-based practice or assessment requiring communication or demonstration of a skill, including using visual aids or presentation decks.

There are several assignment types that use GoReact in Connect.

- Video Capture is an assignment type in Connect that allows use of the full capabilities of GoReact for student recordings.
- Recordable Video Chat is a Question Bank activity created for World Languages as a synchronous communication tool allowing up to nine students to meet online together to make a recording in the target language.
- VoiceBoard is a Question Bank activity created for World Languages as an asynchronous communication tool that allows students to practice speaking, reading, and writing in the target language.

Video Capture Assignments in Connect

Video Capture powered by GoReact™ is a tool in Connect for assigning, recording, and providing feedback on presentations, performances, or demonstrations. It is ideal for any skills-based practice or assessment requiring communication or demonstration of a skill, including using visual aids or presentation decks.

Through GoReact, you can upload or live-record videos of your speeches, presentations, or demonstrations. Instructors and/or peers may give feedback on the recordings in the form of time-coded text, video, or audio feedback. AI generated feedback and comments are also available. Recorded assignments can be scored or graded using total points or customized rubrics.

When completing a Video Capture Assignment:

- Pay close attention to your instructor’s requirements for the assignment before you begin.
 - Who is responsible for recording your speech?
 - When and where is it supposed to be recorded?
 - Do you need to upload the recording yourself, or is it being recorded within the Video Capture tool?
- Make sure you have a good internet connection.
- Use a desktop or laptop computer for optimal results. There is no Video Capture app at this time.
- You do not have to compress your file before uploading; the system will automatically do this.
- If you plan to upload a presentation file (e.g. a PowerPoint), convert it to a PDF first.

Completing Video Capture Assignments

Video Capture Assignments will appear in the list of assignments for your class.

Important to Know:

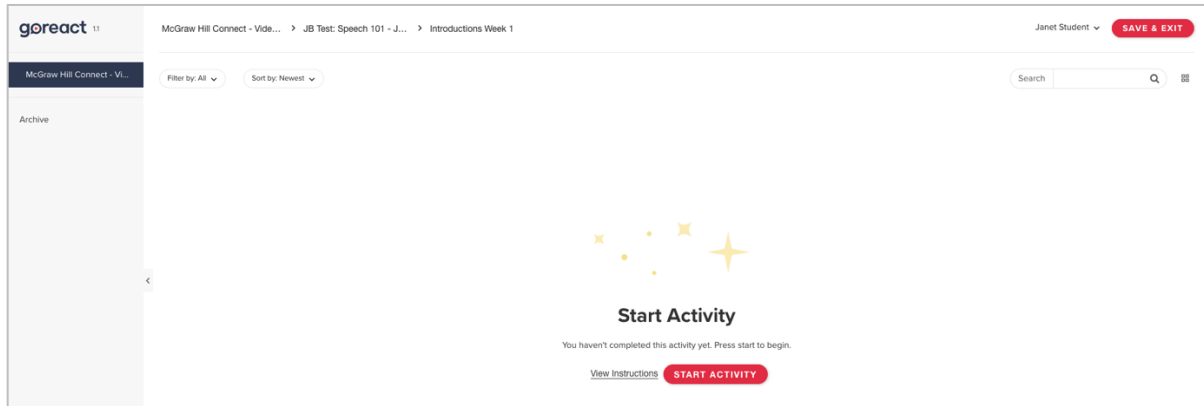

- You have access to your GoReact assignment up until the due date. Once the due date passes, you are locked out of accessing the assignment.
- Posting/Submitting a recording will make it available to your instructor and/or peers for review.
- Comments are immediately available to your instructor and/or peers.
- There is no separate due date for peer review. If peer or self-review is required, you must complete it prior to the due date of the assignment.
- A GoReact assignment is considered to be “started” once you click Continue and enter GoReact.

View your assignments list in Connect or your LMS. Select an assignment and click Continue to access the activity in GoReact.

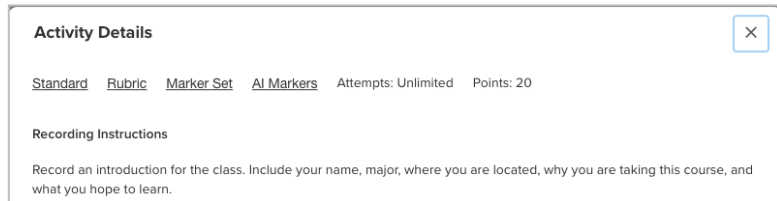

The screenshot displays the GoReact interface for a course titled "JB TEST: SPEECH 101 - JB TEST SPEECH 101 2025". The interface is divided into several sections:

- Instructor:** Janet Boring
- Course materials:**
 - Rent the book: Rent a bound print version of your course text.
 - Loose leaf option: Purchase a discounted loose leaf copy of your course text.
- Read:**
 - The Art of Public Speaking by Stephen Lucas
 - Download the mobile app to read offline.
 - Boost Your Excel Skills: Learn Excel and earn badges for your resume and LinkedIn profile. Includes a "Get Started" button.
- Assignments:**
 - Introductions Week 1
 - Start: Jan 6, 2025 at 2:03 PM PST | Due: Jan 31, 2025 at 11:59 PM PST
 - JB Test: Speech 101 | JB Test Speech 101 2025
- Assignment Details (Right Sidebar):**
 - Introductions Week 1
 - Requires instructor grading
 - Video Capture
 - Assignment details: Start date: Jan 6, 2025 at 2:03 PM PST; Due date: Jan 31, 2025 at 11:59 PM PST
 - Attempts: Attempt 1 of 1 in progress... 100 Points Possible
 - Continue button

You can View Instructions or click on START ACTIVITY.

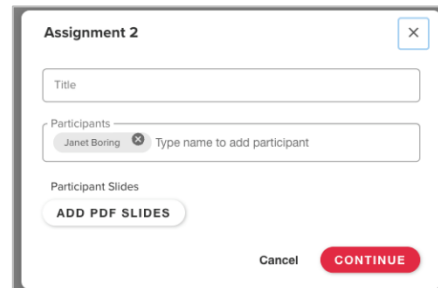

View Instructions allows you to see the instructions for the assignment, any relevant marker sets, and rubrics before beginning the activity. You can choose to SAVE & EXIT to return to Connect if you do not wish to complete the activity at that time.

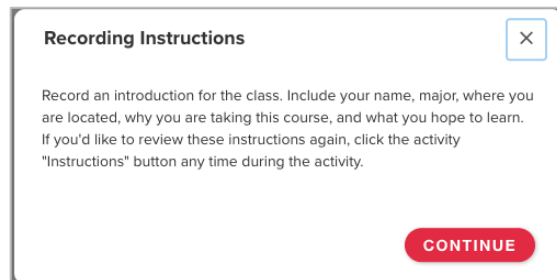

Completing a Standard Activity (most common)

With a Standard Activity, you are recording yourself and may also screenshare or show slides.

When you click START ACTIVITY, you will enter a Title (be descriptive) and you will already be selected as the Participant. If your instructor enabled slides, click ADD PDF SLIDES to add. Click CONTINUE to proceed.

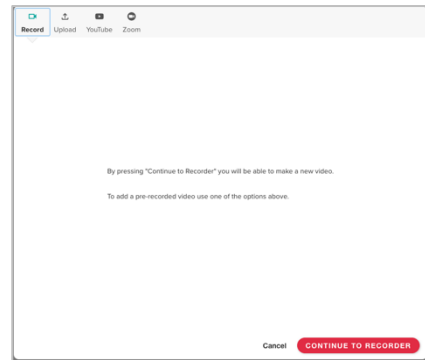

The Recording Instructions will appear for your review. Click CONTINUE to proceed.

The recording window will appear. Most of the time, you will be recording in the GoReact application. That is the preferred method of submission. However, there are also options to upload a file from your device, add a YouTube Link, or a Zoom Link. Your instructor will provide information on how they would like you to submit the assignment.

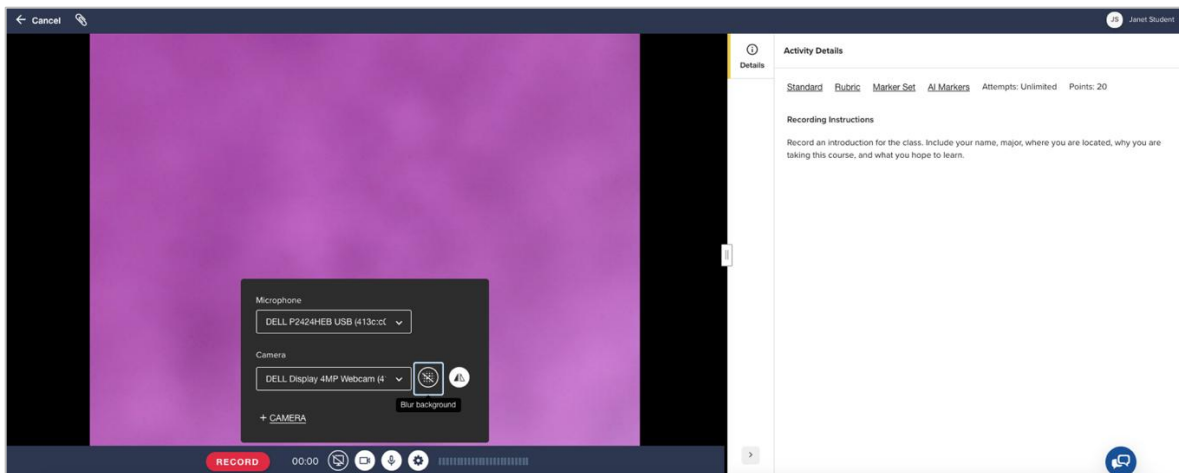

Click CONTINUE TO RECORDER to proceed.

If prompted, be sure to allow both camera and microphone access for this site.

You are now in the recorder. You will see your video on the left and can open the Activity Details on the right and keep them open if you like.

Be sure your camera and microphone are both on (they will appear white). You have the option to Blur background under the gear settings. You also may share your screen if that is part of your assignment. Click RECORD to begin.

Once you are recording, you may see options to PAUSE, STOP or Restart. Keep in mind that your instructor can limit these options so they may not all be available to you.

If you PAUSE, you will then see a RESUME button to continue recording.

If you click Restart, this permanently deletes your video and starts the activity over.

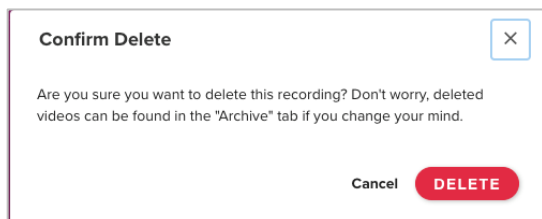

Once you are finished, click STOP. You may have various options to choose from, depending on how your instructor set up the activity.

POST will submit the video and make it visible to the instructor and your peers if peer review is part of the activity. You will be returned to the main activity screen. Be sure to click SAVE & EXIT to return to Connect.

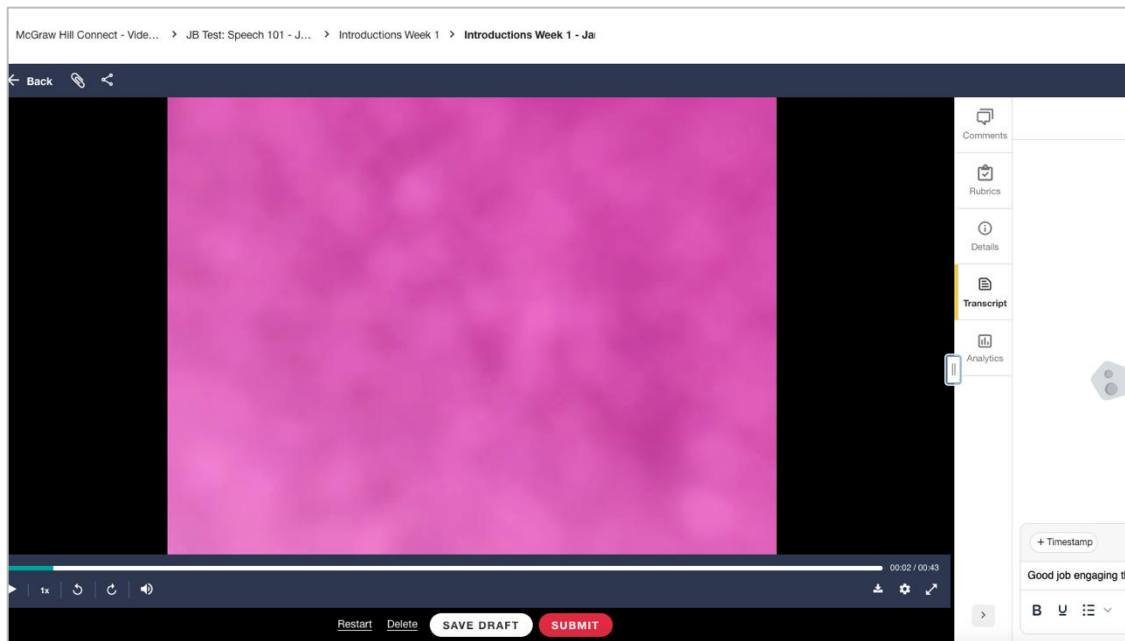

DELETE will delete your video and start the activity over, but you can restore the video later from the Archive section if you delete it by mistake.

SAVE DRAFT saves the video as visible only to you until you are ready to delete it or post it. After a few minutes, it will appear with a Draft icon and the option to Post Recording.

Clicking on Post Recording takes you back to the recorder where you must click SUBMIT to post the video.

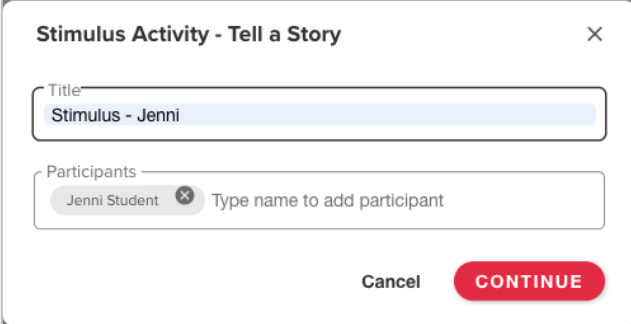

You'll be returned to the main activity screen. Be sure to click SAVE & EXIT to return to Connect.

Completing a Stimulus Activity

With a Stimulus Activity, an image or video has been attached to the activity that you are expected to respond to. That media will show on a split screen while you record.

When you click START ACTIVITY, you will enter a Title (be descriptive) and you will already be selected as the Participant. Click CONTINUE to proceed.

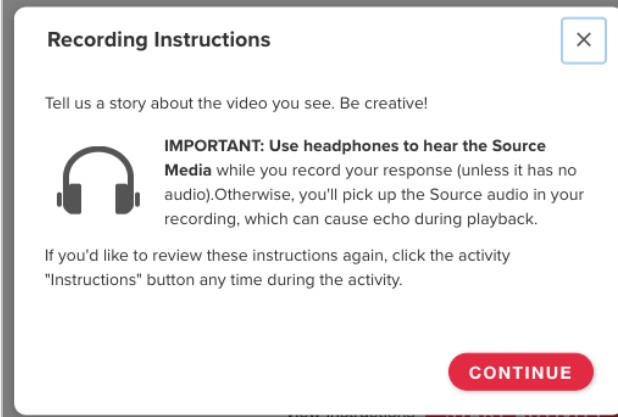

Stimulus Activity - Tell a Story [X]

Title
Stimulus - Jenni

Participants
Jenni Student [X] Type name to add participant

Cancel CONTINUE

The Recording Instructions will appear for your review. Click CONTINUE to proceed.

Recording Instructions [X]

Tell us a story about the video you see. Be creative!

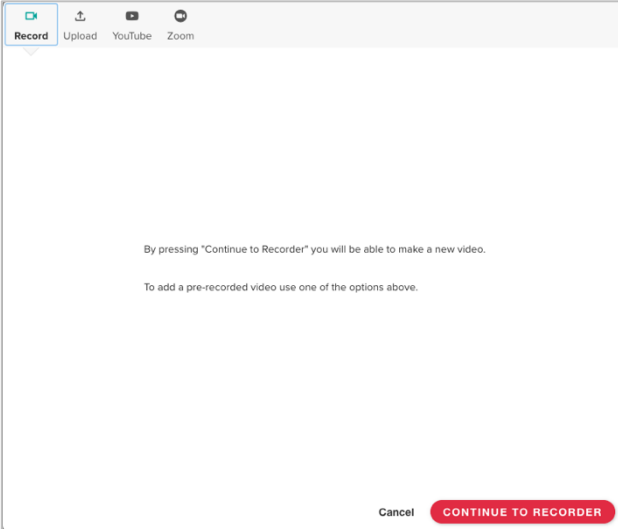

IMPORTANT: Use headphones to hear the Source Media while you record your response (unless it has no audio). Otherwise, you'll pick up the Source audio in your recording, which can cause echo during playback.

If you'd like to review these instructions again, click the activity "Instructions" button any time during the activity.

CONTINUE

The recording window will appear. Most of the time, you will be recording in the GoReact application. That is the preferred method of submission. However, there are also options to upload a file from your device, add a YouTube Link, or a Zoom Link. Your instructor will provide information on how they would like you to submit the assignment.

Click CONTINUE TO RECORDER to proceed.

Record Upload YouTube Zoom

By pressing "Continue to Recorder" you will be able to make a new video.

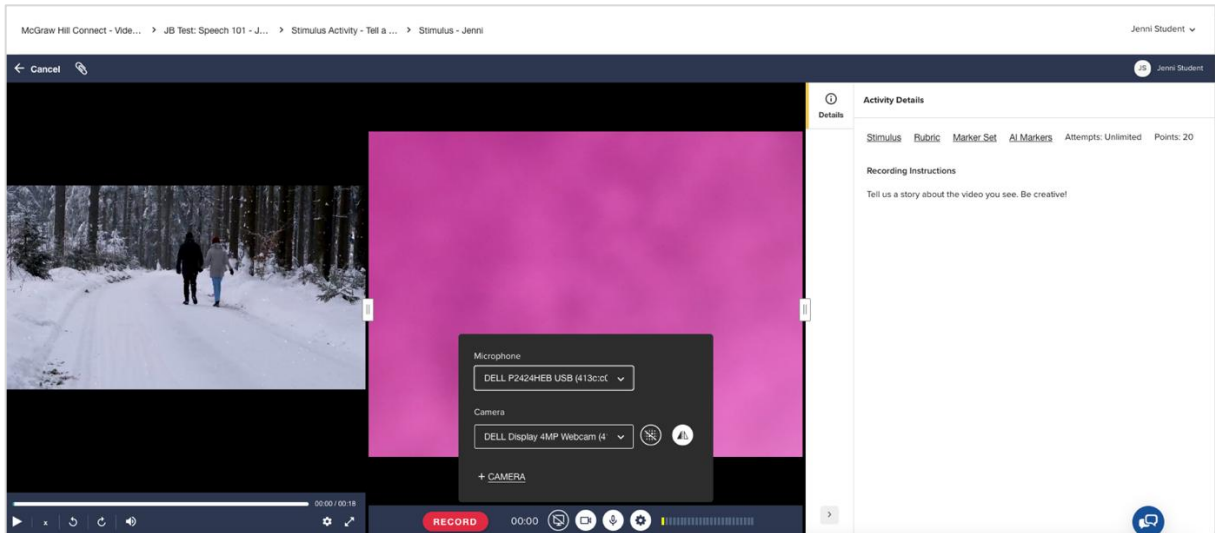

To add a pre-recorded video use one of the options above.

Cancel CONTINUE TO RECORDER

If prompted, be sure to allow both camera and microphone access for this site.

You are now in the recorder. You will see the stimulus media on the left, then your video, and you can open the Activity Details on the right and keep them open if you like.

Be sure your camera and microphone are both on (they will appear white). You have the option to Blur background under the gear settings. Click RECORD to begin.

Once you are recording, you may see options to PAUSE, STOP or Restart. Keep in mind that your instructor can limit these options so they may not all be available to you.

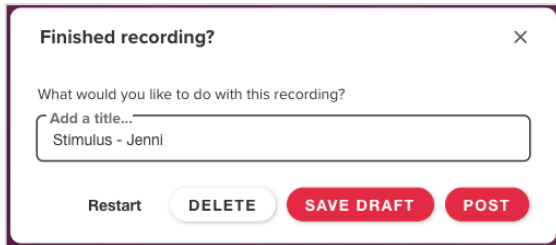

If you PAUSE, you will then see a RESUME button to continue recording.

If you click Restart, this permanently deletes your video and starts the activity over.

Once you are finished, click STOP. You may have various options to choose from, depending on how your instructor set up the activity.

Finished recording? [X]

What would you like to do with this recording?

Add a title...
Stimulus - Jenni

Restart [DELETE] [SAVE DRAFT] [POST]

POST will submit the video and make it visible to the instructor and your peers if peer review is part of the activity. You will be returned to the main activity screen. Be sure to click SAVE & EXIT to return to Connect.

Clicking on Post Recording takes you back to the recorder where you must click SUBMIT to post the video.

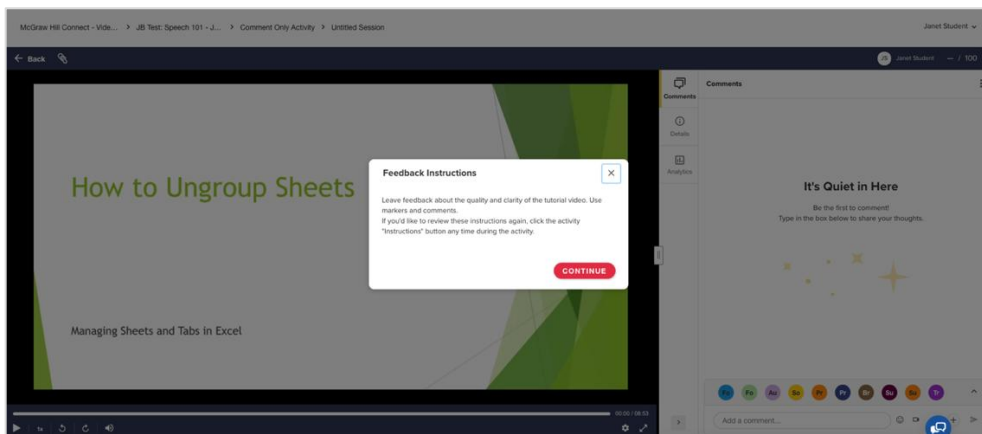

You'll be returned to the main activity screen. Be sure to click SAVE & EXIT to return to Connect.

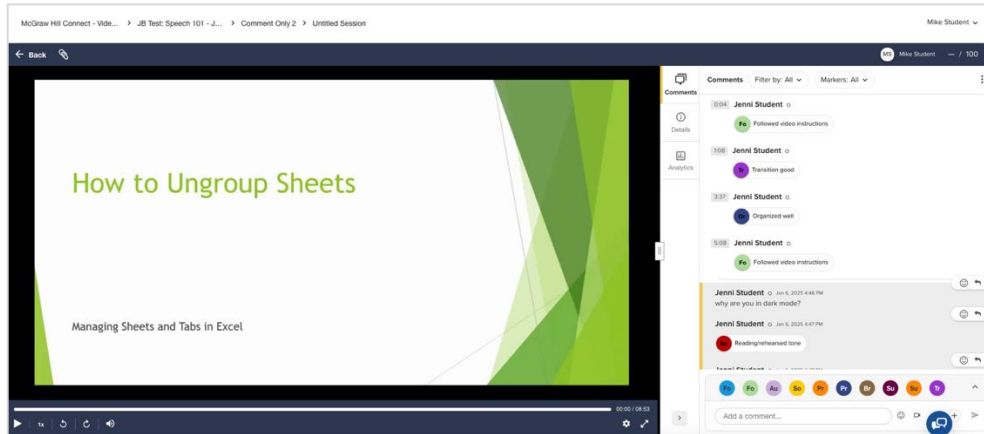

Completing a Comment Only Activity

With a Comment Only Activity, a video has already been attached to the assignment, and you are going to watch it and comment according to the instructions. You might use markers, text, audio, or video comments.

When you click START ACTIVITY, you will be taken directly to the activity and see the feedback instructions. Review them and click CONTINUE.

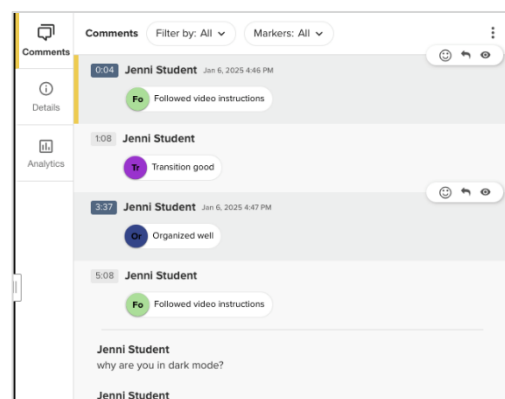

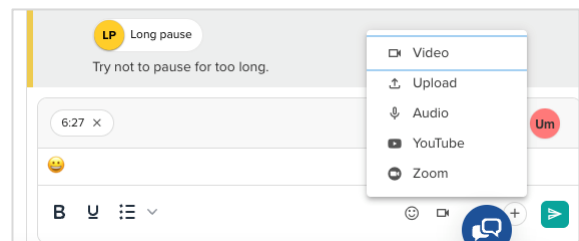

Be sure you are on the Comments tab on the right. If you previously added comments, those will be visible with their time stamps. If your instructor has enabled open peer review, you can see any comments left by others in the class.

Follow the instructions provided as to the type and quantity of feedback you are to provide. When you click a marker or to add a comment, the video will automatically pause so that it can timestamp your feedback.

- You can use the markers (if assigned) to make quick notes which will be timestamped to the location in the video. You can simply click the marker and hit enter or the blue arrow. Or add an additional comment and hit enter or the blue arrow.
- You can Add a comment using emojis and text, video, or audio which will be timestamped to the location in the video.
- You can also react or reply to your peers' comments if those are visible. Hover or click on the comment to see those options.

When you are finished, Click BACK to return to the main activity screen.

Be sure to click SAVE & EXIT to return to Connect.

If your instructor has not limited the activity to a single attempt, you can go in and add or edit comments as many times as you like up until the due date for the assignment.

Group Recordings

When using the group recording option, one student creates the initial session and all others in the group can click on that session on the dashboard to join it. Everyone in the group will see each other simultaneously. Up to nine presenters can join this type of recording.

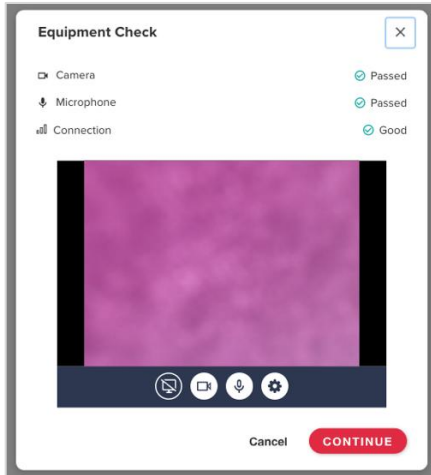

Your instructor may preassign the groups in the GoReact assignment or assign the groups outside of GoReact or Connect.

Joining a Group

If your instructor has previously set up groups in GoReact for the assignment or another member of your group already started the assignment, you will see a Join option to join the correct group recording.

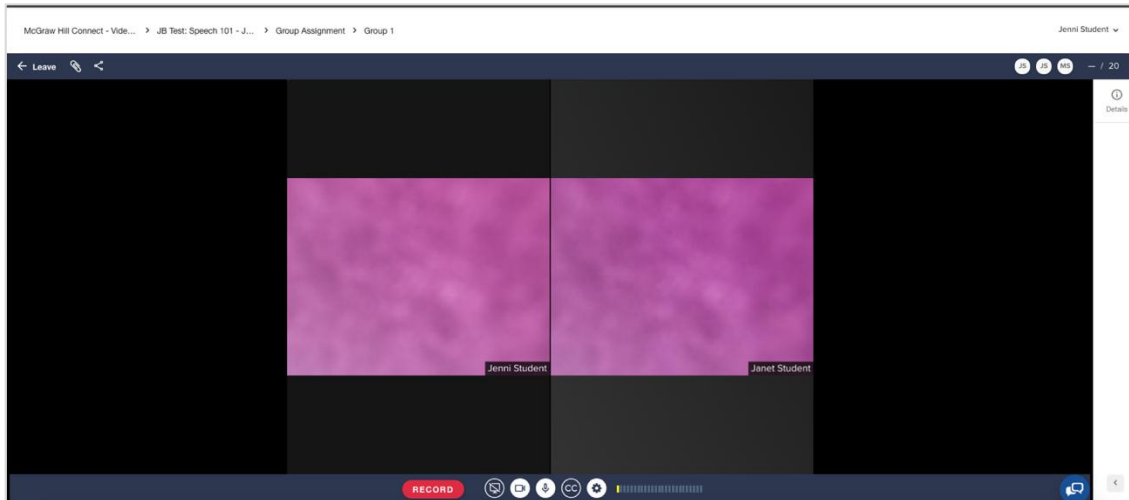

When you click Join, you will see the Equipment Check window. Click CONTINUE.

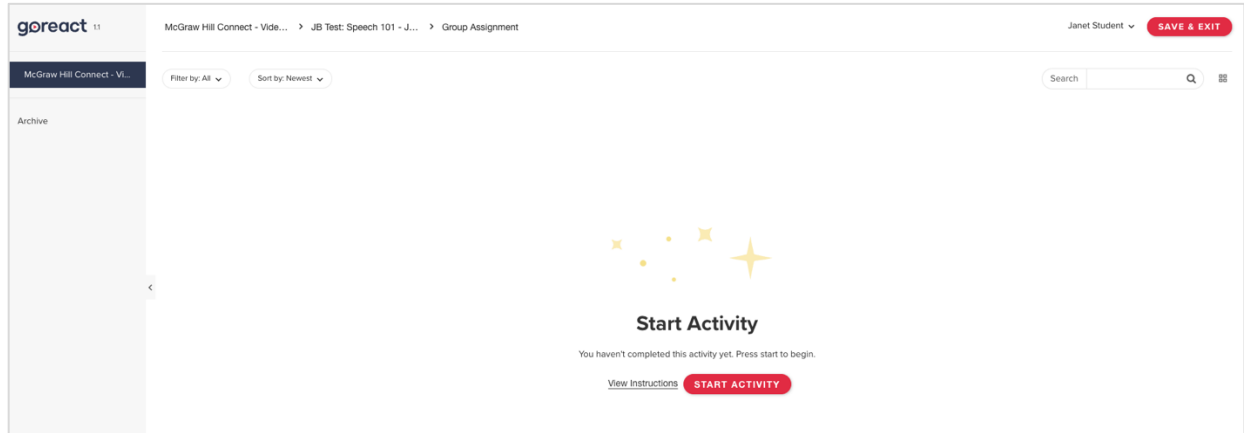

You have joined the session and will see all the other participants currently in the session.

If for some reason, you are not ready to join or have an issue, you can just click Leave.

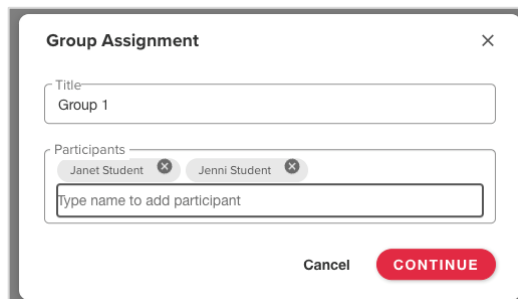

Starting the Group

If your instructor did not set up groups in GoReact and you are the first presenter or were designated to create the session, click **START ACTIVITY**.

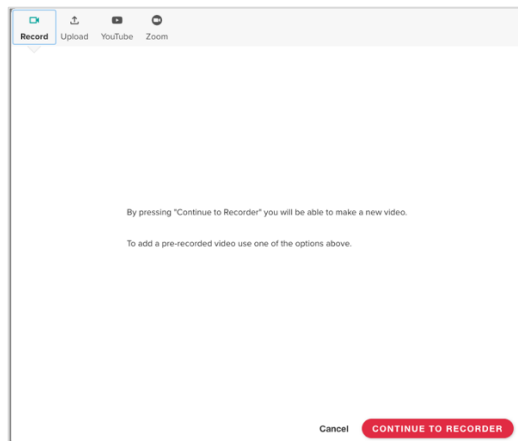

Then, add a Title and add each member of your group to Participants. Click **CONTINUE**.

Note: If your instructor selected "Private" in the assignment settings, other students won't be able to join the recording unless you enter each of their names in the "Presenters" field.

Click **CONTINUE** and you will be prompted to **CONTINUE TO RECORDER**.

You are now in the session and will see other presenters as they join.

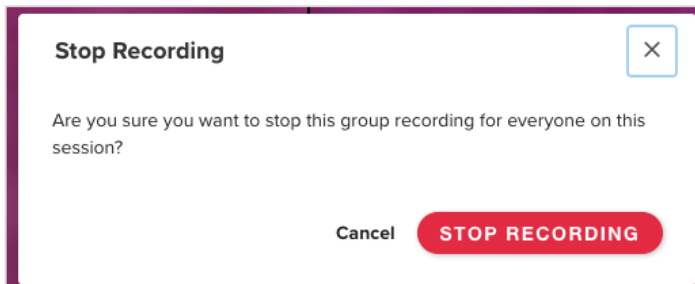

Recording the Session

Wait for everyone to join and then have one presenter click **RECORD** to start the recording for the entire group. This will be one recording but it can be paused between presenters if necessary and then resumed.

Anyone can **PAUSE** or **RESUME** the recording at any time and any participant can screenshare.

When everyone is finished, have one presenter click **STOP**. You will be asked to confirm you want to **STOP RECORDING**.

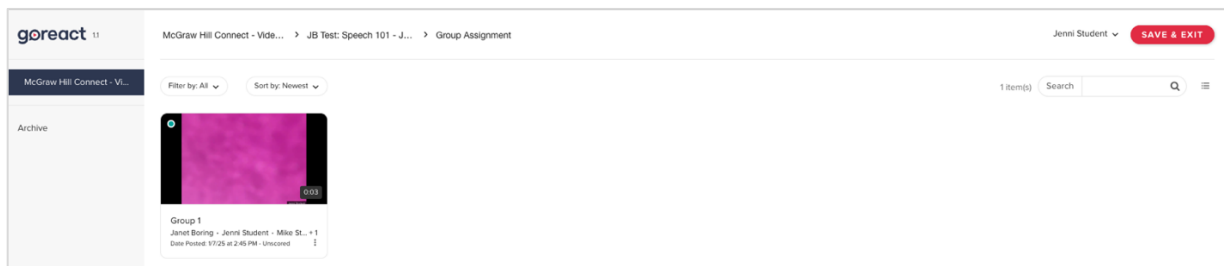

You can review the recording and SUBMIT or Delete.

Note: If you choose to DELETE, you will need to start the activity over and initiate a new group session. Your instructor may disable this option.

Once you click SUBMIT, you will be returned to the main activity screen. Click SAVE & EXIT to return to Connect.

Completing a Recordable Video Chat Assignment

Recordable Video Chat assignments will appear in the list of assignments for your class.

Important to Know:

- A Recordable Video Chat assignment is a synchronous activity where you participate in a conversation with one or more classmates.
- Follow the instructions for the activity or those provided by your instructor regarding the requirements for participation.
- Comments are immediately available to your instructor and peers.
- You can access the assignment as many times as you like until the due date passes.
- Be sure to access the discussion through your assignments list or link.

View your assignments list in Connect or your LMS. Select an assignment and click Begin.

The screenshot shows the LMS interface for the assignment 'Recordable Video Chat Cap. 1'. On the left, there is a sidebar with 'Instructor' (Janet Boring), 'Course materials' (Rent the book, Loose leaf option), and 'Read' (Punto y aparte). The main area displays the 'Assignments' list with three items: 'Voice Board Cap. 1', 'Voice Board Test 2', and 'Recordable Video Chat Cap. 1'. The 'Recordable Video Chat Cap. 1' assignment is selected, and its details are shown on the right, including 'Requires instructor grading', 'Homework' status, 'Assignment details' (Start date: Jan 30, 2025 at 1:00 PM PST, Due date: Feb 28, 2025 at 11:59 PM PST), and 'Attempts' (Unlimited attempts, 10 Points Possible). A 'Begin' button is visible at the bottom right.

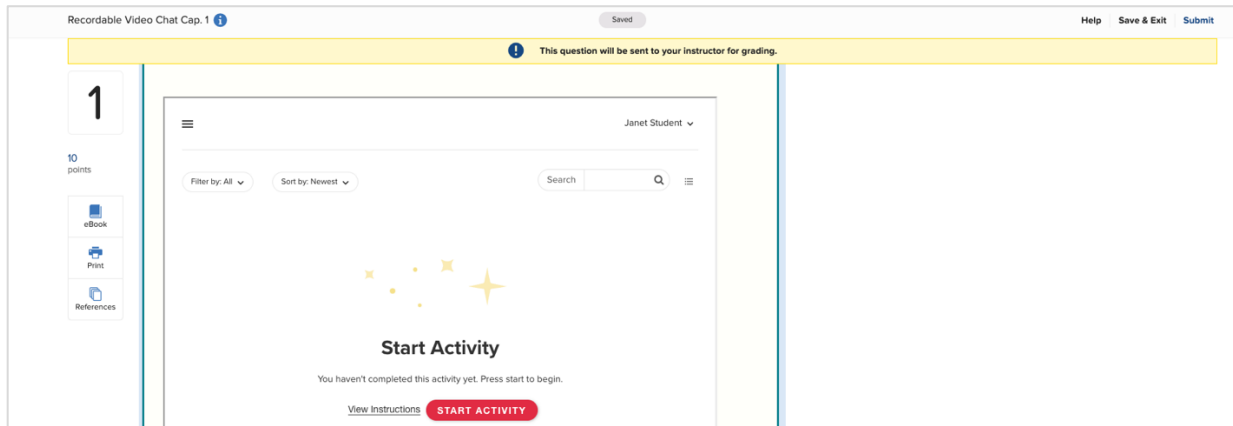

You will see the details of the assignment. Click Continue to proceed. Click Save and Exit if you do not want to complete the activity at this time.

The screenshot shows the 'Recordable Video Chat Cap. 1' assignment details page. At the top, it says 'In Progress ...' and '0 / 1 questions answered'. Below this, the 'Assignment details' section shows '10 points', 'Due date: 02/28/2025 at 11:59 PM', and 'Current attempt: 1 of unlimited'. At the bottom, there are two buttons: 'Save and Exit' and 'Continue >'.

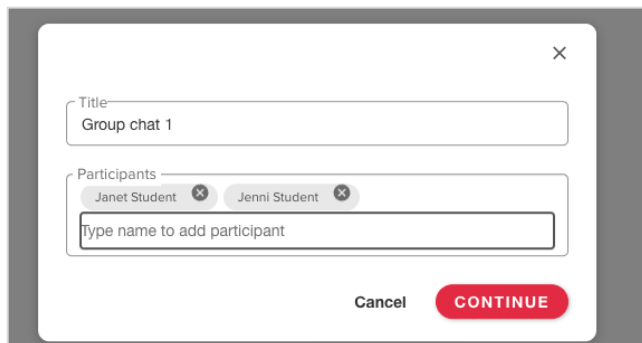

You will be taken to the assignment. There may be information or other questions that are part of the assignment. Be sure to review everything carefully and complete any required items.

The screenshot shows the assignment content page. At the top, it says 'Recordable Video Chat Cap. 1' and 'Saved'. A yellow banner at the top right says 'This question will be sent to your instructor for grading.' The main content area is titled 'Vocabulario del tema ACTIVIDADES' and 'F. Problemas cotidianos'. It contains a paragraph of text and two numbered questions. Question 1 asks to coordinate with a partner to review problems and create a card with new words from the chapter. Question 2 asks to describe Francisco's situation and what he should do to improve it. There are also icons for 'eBook', 'Print', and 'References' on the left side.

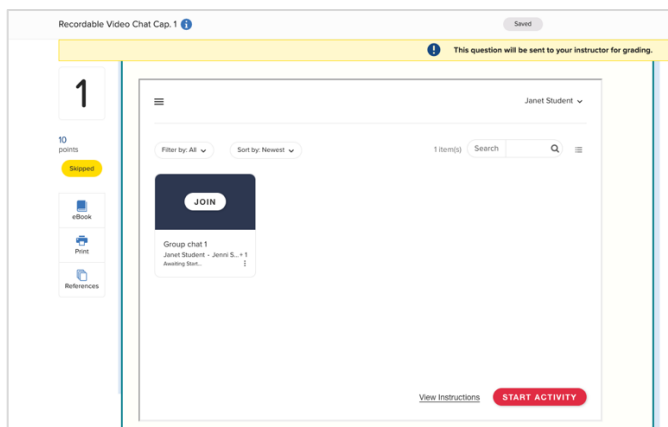

The Recordable Video Chat is accessed within the GoReact window. Click View Instructions to see any additional instructions that are available. Click START ACTIVITY to begin.

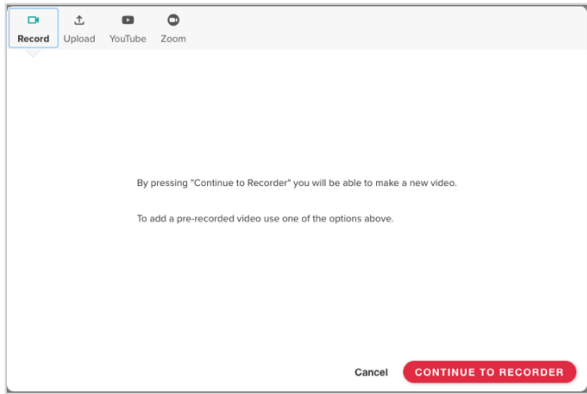

If your instructor did not set up groups in GoReact and you are the first presenter, you will start the group. Add a Title and add each member of your group to Participants (up to 9 people). Click CONTINUE.

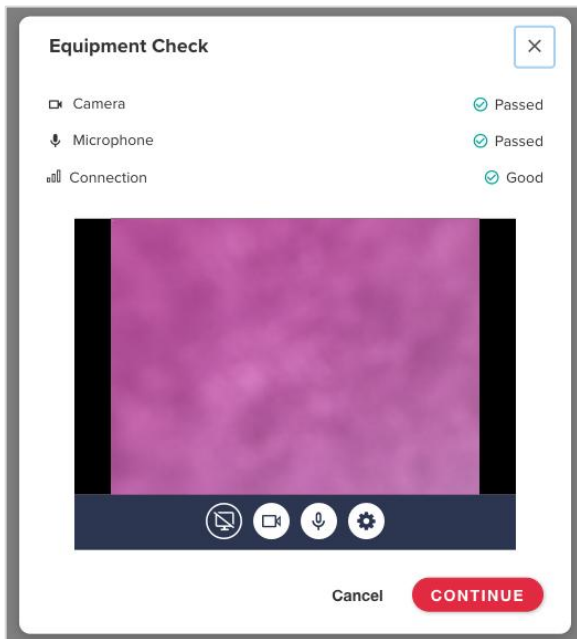

If your instructor has previously set up groups in GoReact for the assignment or another member of your group already started the assignment, you will see a JOIN option to join the correct group recording.

Most of the time your instructor will require you to do a live recording. Click CONTINUE TO RECORDER.

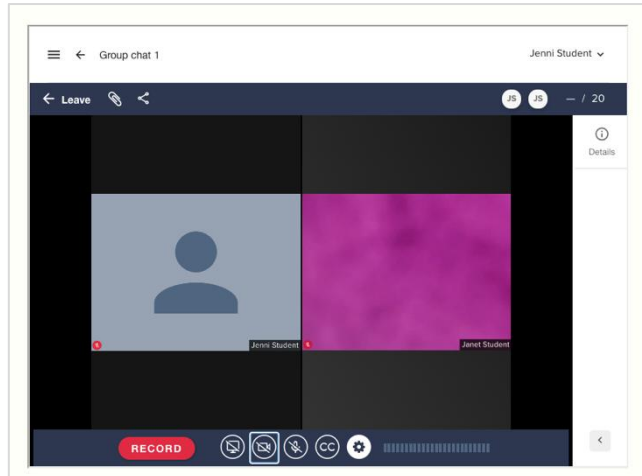

You will see the Equipment Check window. Click CONTINUE. Be sure to allow both camera and microphone if prompted.

You are now in the session and will see your video and that of any others who have joined on the left.

Be sure your camera and microphone are both on (they will appear white). Participants can see and hear each other even when they are not recording so that they can coordinate their presentation.

Wait for everyone to join and then have one presenter click RECORD to start the recording for the entire group. This will be one recording but it can be paused between presenters if necessary and then resumed.

You have the option to Blur background under the gear settings. Any participant may also share their screen if that is part of your assignment. Screenshare is not supported on mobile devices.

Anyone can PAUSE or RESUME the recording at any time.

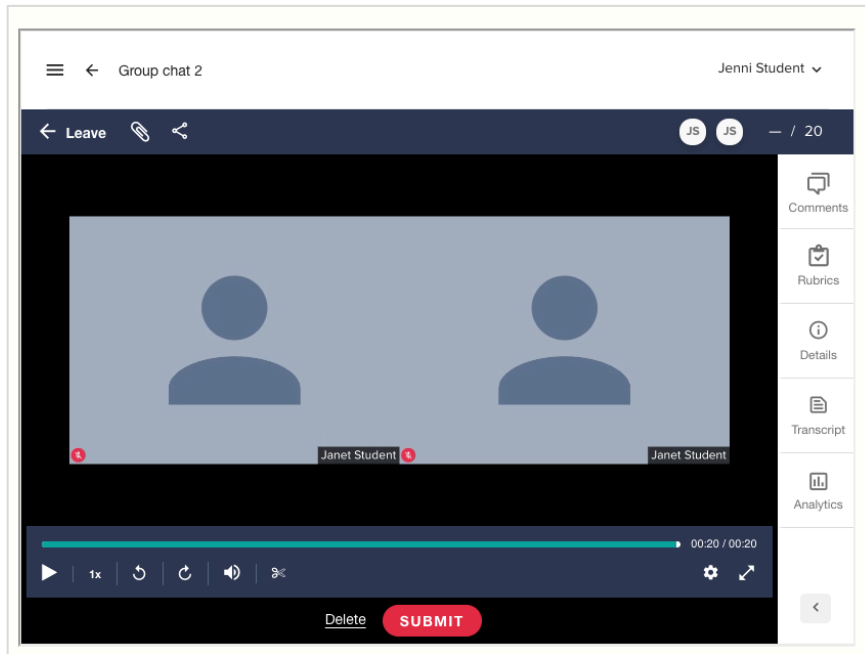

During the conversation, any of the presenters can upload additional files which will then be consolidated into the submission. Files uploaded by other participants can be viewed after the assignment page gets refreshed.

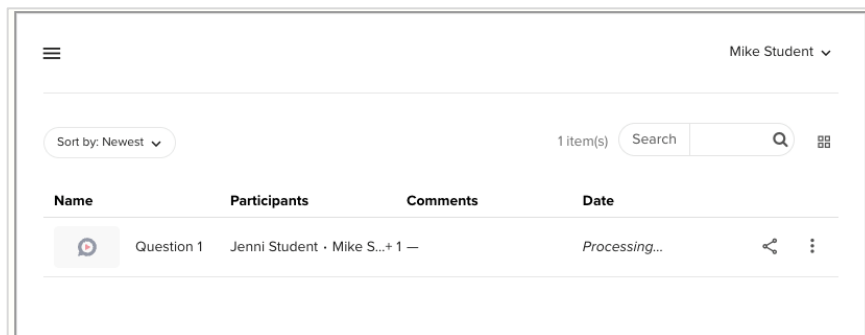

When everyone is finished, have one presenter click STOP. You will be asked to confirm that you are finished recording. Click Cancel to resume recording or STOP RECORDING if you are finished.

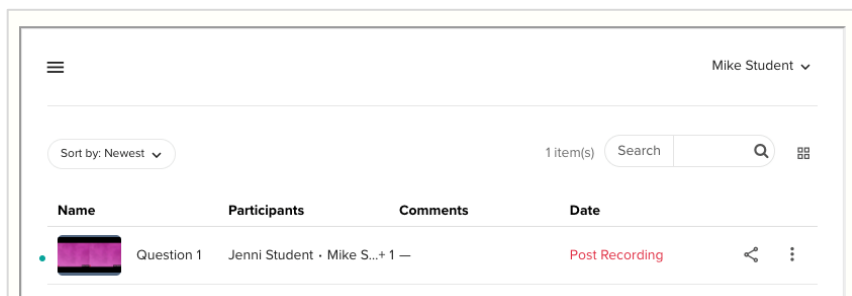

The video may show as Processing for a few moments. Be sure to click SUBMIT to post the video.

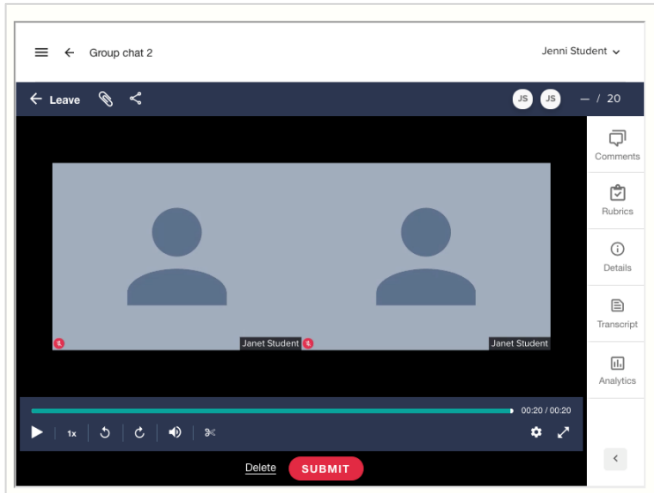

Note: Instead of the SUBMIT option, you may be returned to the GoReact window where the video will show as Processing.

Within a few moments, you will see Post Recording as an option next to the video. Click to view and submit the video.

Be sure to click SUBMIT to post the video. You can also click Delete to delete and start over.

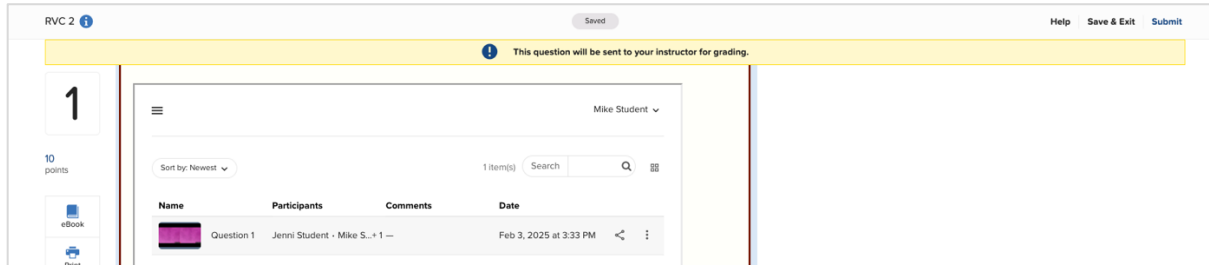

Note: You may also get this message when you click STOP. Click POST to submit the video or DELETE to delete and start again.

The video may show as processing for a few moments. Be sure to click SUBMIT to post the video. You can also click Delete to delete and start over.

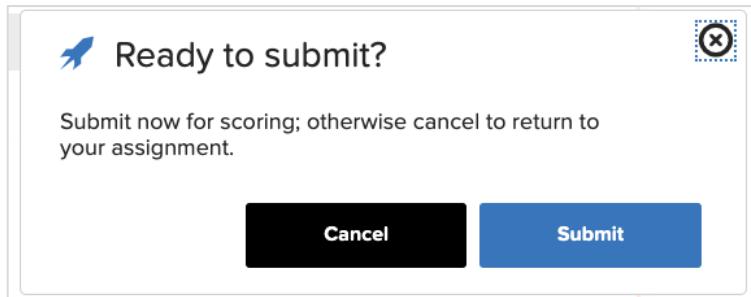

You will be returned to the GoReact screen. Don't forget to click Submit in Connect if necessary. Click Save & Exit to return to your assignments list.

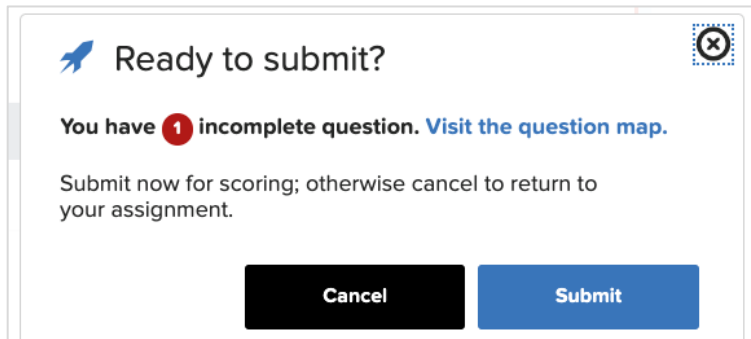

When you are finished commenting, click Submit in the top right corner.

You will be asked if you are ready to submit. Click Submit.

If there are other parts to the assignment that you have not completed, you will receive this message. Click Cancel to return to the assignment.

You will receive a confirmation message after clicking Submit. Clicking View results takes you back to the assignment.

Click Exit in the upper right corner to return to your assignment list.

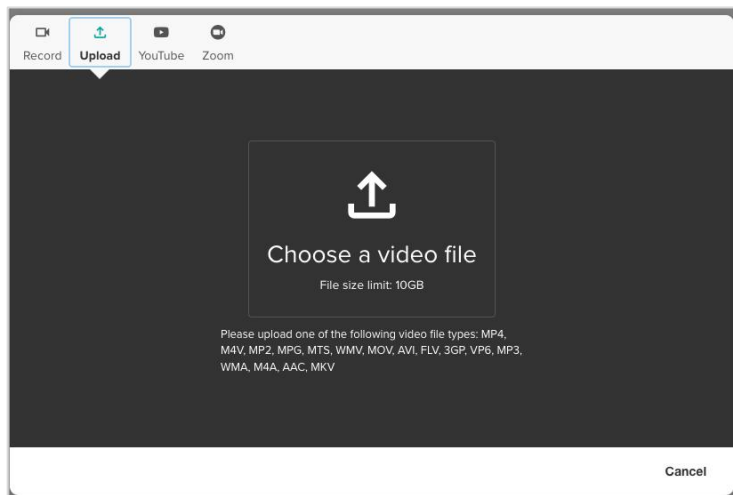

Alternate Recording Methods

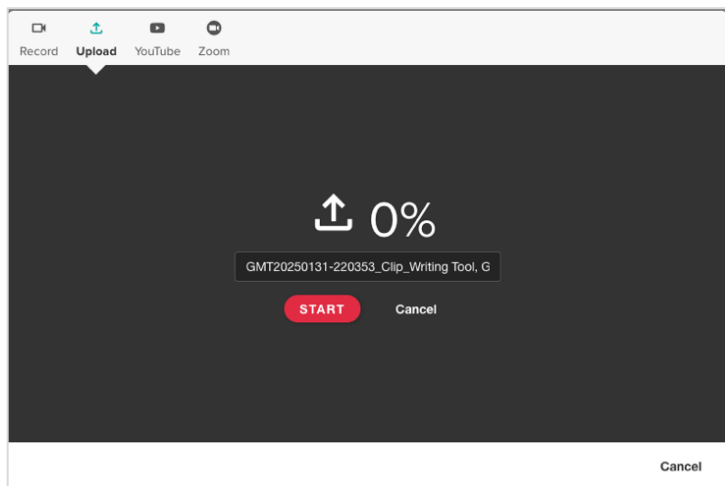

Uploading a previously recorded video

Your instructor may allow you to record elsewhere and upload your video to the assignment.

Click Upload and choose your video file.

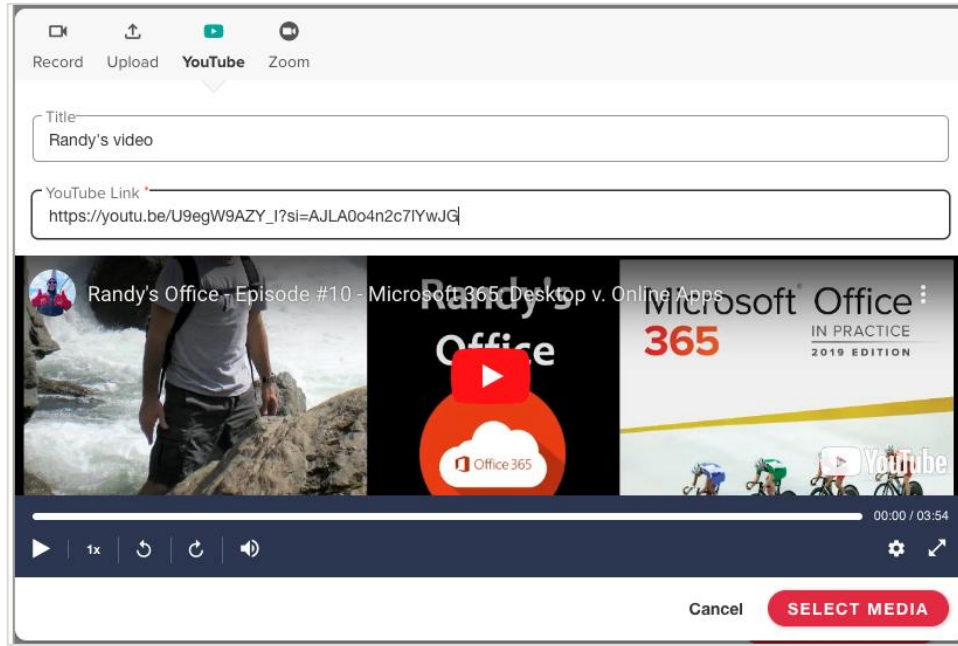

Click START to upload. It will show you the progress of the upload. Once it finishes, you will be returned to the GoReact screen.

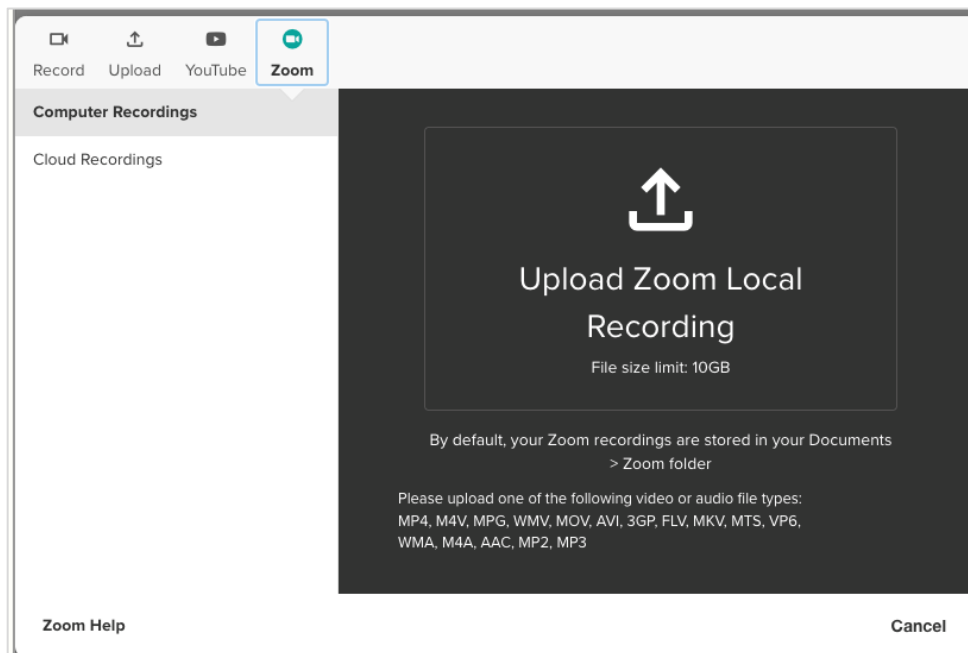

Using a YouTube video link

If your instructor allows use of a YouTube link, enter the Title and the link. You will see a preview of the video. Click SELECT MEDIA and you will be returned to the GoReact screen.

Using a Zoom Recording

If you have a Zoom account, you can also upload a Zoom recording. Follow the instructions to do so.

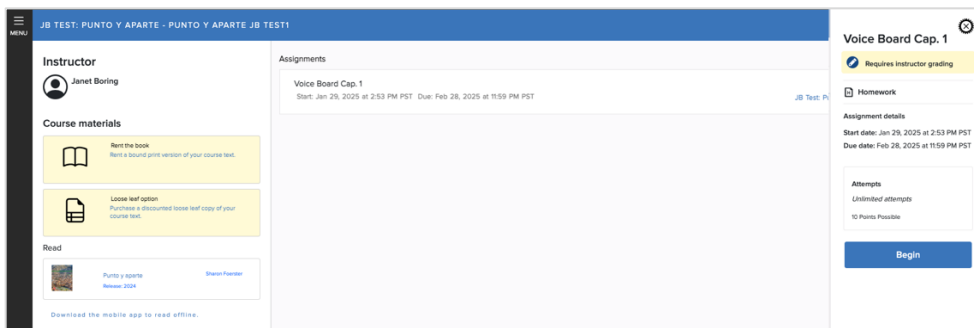

Completing a Voice Board Assignment

Voice Board assignments will appear in the list of assignments for your class.

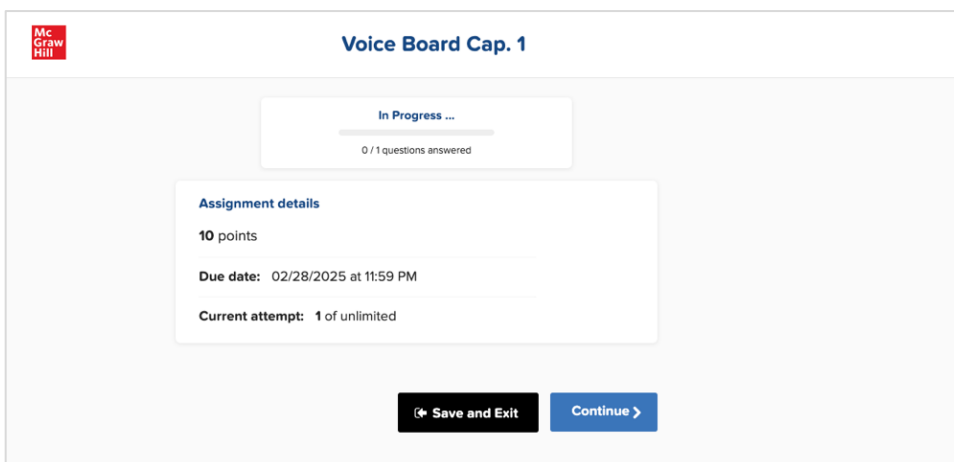

Important to Know:

- A Voice Board assignment is a discussion board where you can post text, audio, or video comments and reply to the comments others post.
- Follow the instructions for the activity or those provided by your instructor regarding the requirements for participation.
- Comments are immediately available to your instructor and peers.
- You can access the assignment as many times as you like until the due date passes.
- Be sure to access the discussion through your assignments list or link.

View your assignments list in Connect or your LMS. Select an assignment and click Begin.

You will see the Assignment details. Click Continue to start the assignment or Save and Exit to return to the assignment list.

You will be taken to the assignment. There may be information or other questions that are part of the assignment. Be sure to review everything carefully and complete any required items.

The screenshot shows a GoReact assignment window titled "Voice Board Cap. 1". A yellow banner at the top states "This question will be sent to your instructor for grading." The main content area is titled "Hablando del tema" and contains a debate prompt: "Debate: El derecho de vestirse tal como quiera". Below the prompt is a table of words categorized as "A FAVOR".

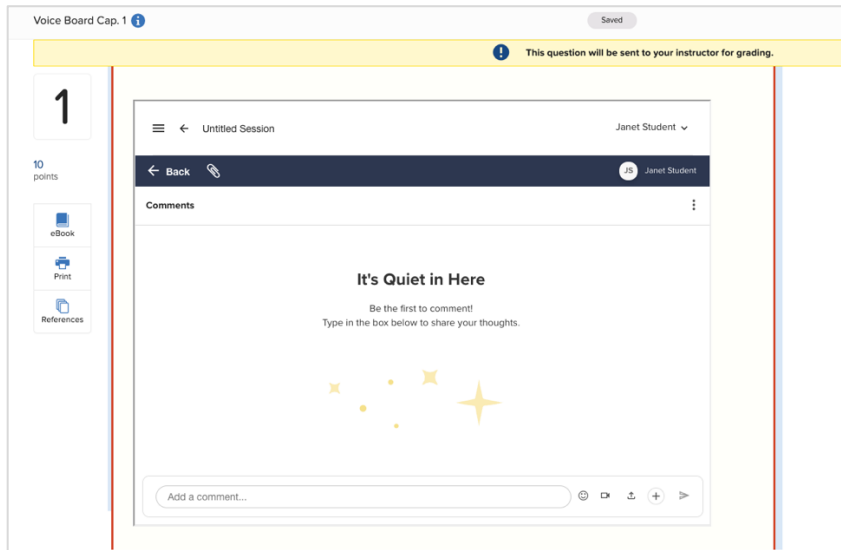

A FAVOR		
los clientes	el eslogan	los valores
ofender	boicotear	dictar
sensible	político/política	incómoda/incómoda

Below the table are four numbered input fields for writing responses. The first field contains the text: "1. Los eslóganes políticos son ofensivos para muchos clientes." The other three fields are empty. At the bottom, there is a prompt: "Luego, prepare otra ficha **en contra** de la afirmación siguiendo la ficha modelo."

The discussion is accessed within the GoReact window. Click View Instructions to see any additional instructions that are available. Click START ACTIVITY to enter the discussion board.

The screenshot shows the same GoReact assignment window, but the main content area displays a "Start Activity" screen. The screen features a search bar, a "Sort by: Newest" dropdown, and a "START ACTIVITY" button. The text on the screen reads: "You haven't completed this activity yet. Press start to begin." Below this text are links for "View Instructions" and "START ACTIVITY". The bottom of the window shows navigation controls: "Prev", "1 of 1", and "Next".

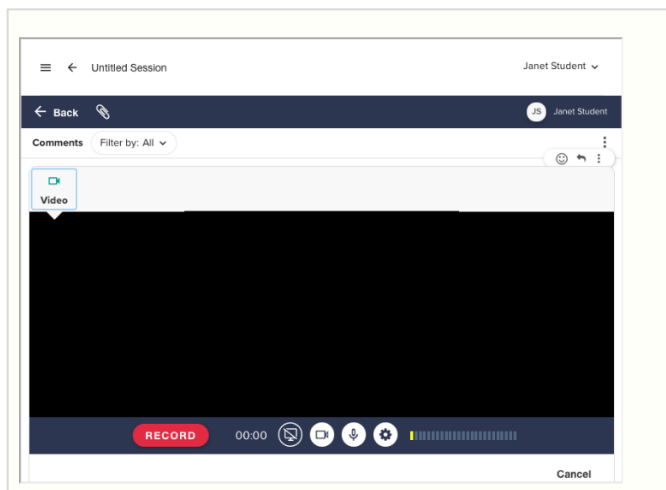

You will see the Comments area which functions the same as in any other GoReact activity. If nobody has yet commented, you'll see this message. Participants can start the conversation by entering a comment.

You can add text, emoji, video, or audio comments, or even upload a file or add a link. Be sure to follow any directions given by your instructor regarding the type, length or number of comments and replies you are required to post.

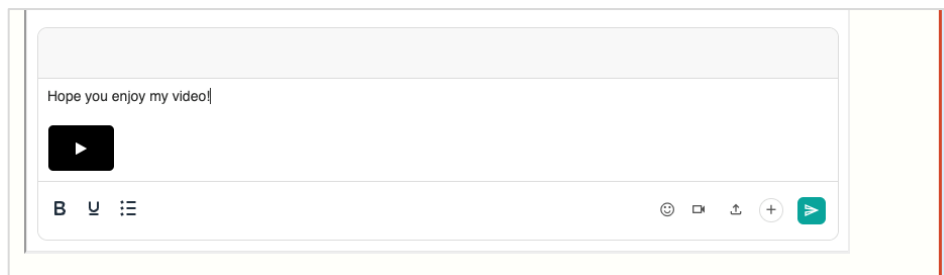

If you are posting a video comment, you will be asked to allow permission for your camera and microphone. Allow access to both. Click RECORD to begin.

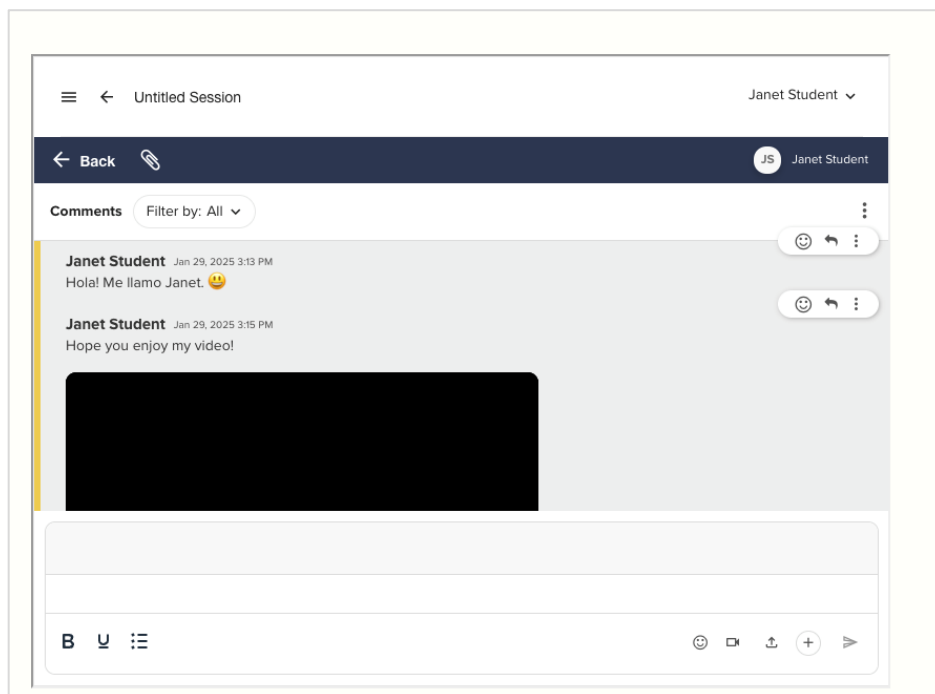

You can PAUSE the recording and then RESUME if necessary.

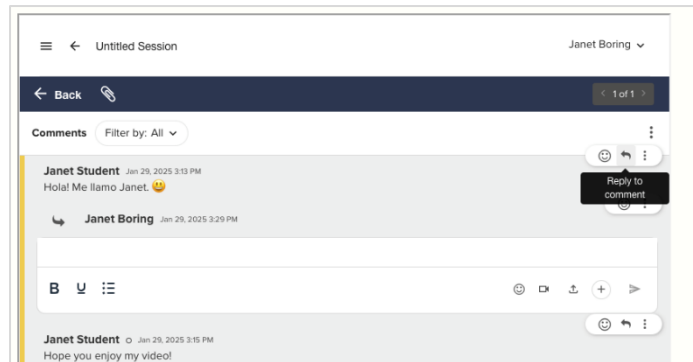

When you click STOP, you will see a thumbnail video icon. You can add text or other elements to the comment before posting.

Your comments will appear in the feed.

You can also view and reply to comments others have made. To reply to a specific comment, click the reply arrow and use the box that opens beneath the comment. You have the same options when replying to a comment as above.

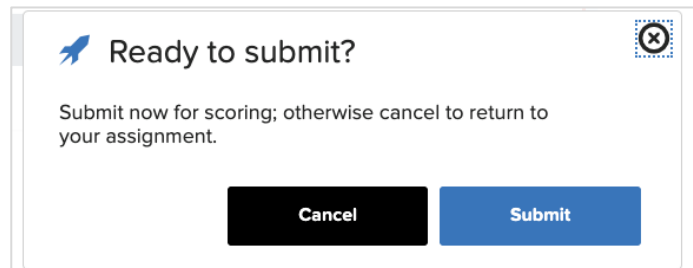

You can edit or delete any comment that you have made. Simply click the 3 dots next to the comment and select Edit or Delete.

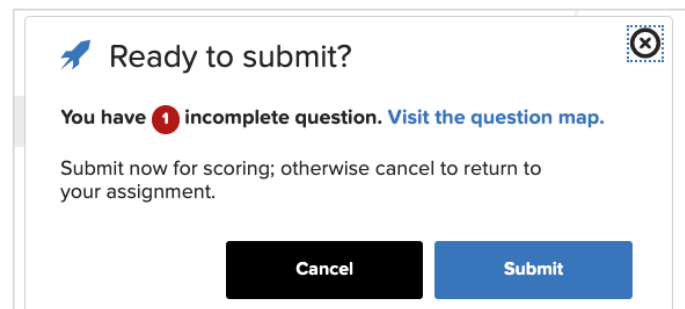

When you are finished commenting, click Submit in the top right corner.

You will be asked if you are ready to submit. Click Submit.

If there are other parts to the assignment that you have not completed, you will receive this message. Click Cancel to return to the assignment.

You will receive a confirmation message after clicking Submit. Clicking View results takes you back to the assignment.

Click Exit in the upper right corner to return to your assignment list.

After submitting a Voice Board assignment, it will stay in your assignment list until the due date so that you can go back and review or reply to other comments. Be sure to launch the assignment from the assignment list in order to add additional comments.

If you access the assignment by going to the results, you will not be able to add additional comments. You will receive a read-only message. Simply exit and then go to the assignment from the assignment list.

Peer and Self Review

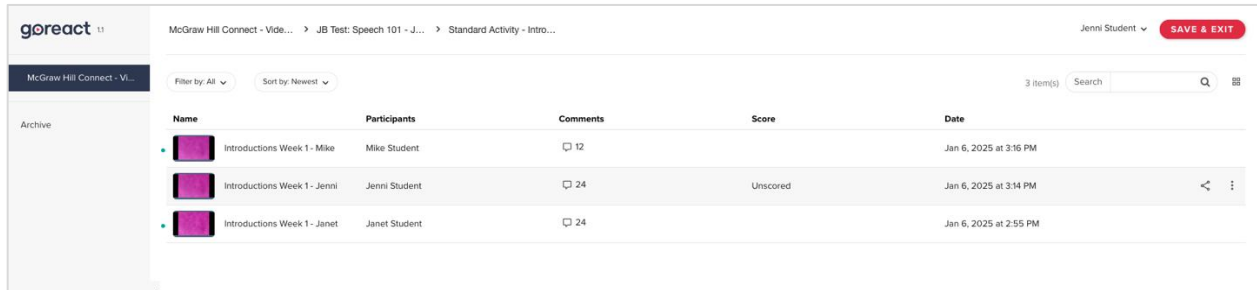

As part of your assignment, your instructor may require you to provide comments about your own video or give feedback on one or more of your peers' videos.

Important to Know:

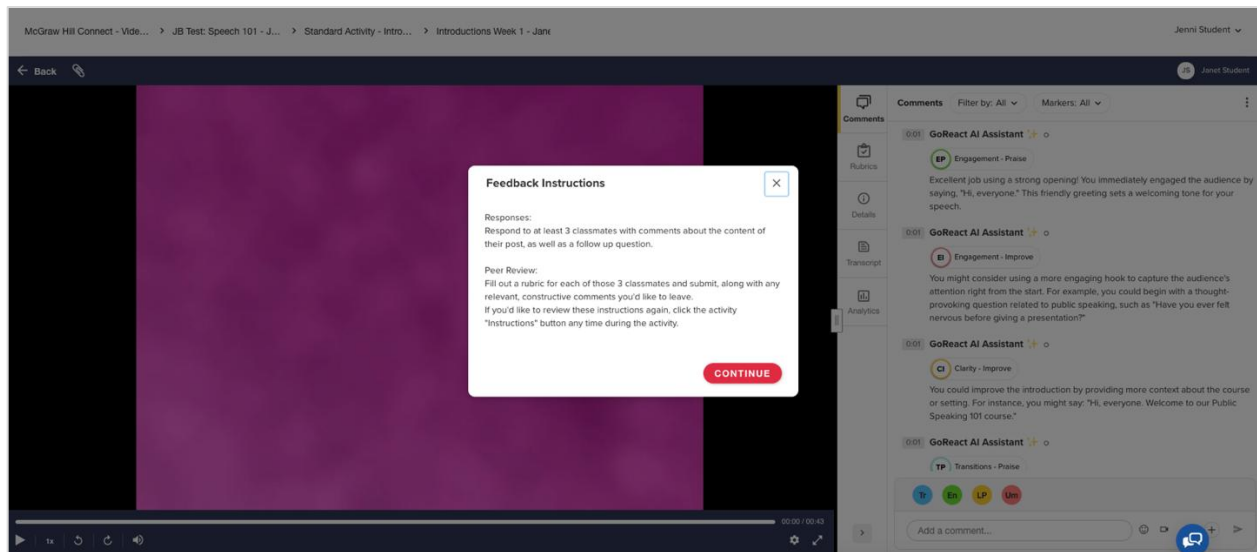

- Peer review is available for as long as the video capture assignment is open, so be sure to pay attention to the due date for the assignment to complete it in time.
- Your instructor may require you to use the in-video comment features, a rubric, or both.
- Any comments and comment markers you post will be labeled with your name.
- Feedback from the instructor, as well as your peers will appear all in the same screen and will be available in real time upon being added.

You can review any recording submitted by your peers for a specific assignment; there are no set peer groups within Connect or GoReact. Your instructor may choose to assign groups another way or instruct you to review a certain number of videos.

To complete a peer review, select the Video Capture Assignment in Connect. Once you are in GoReact, you will see the list of available videos to comment on, including your own. Click on a video to review. You may select your own video to do a self-review if required.

You will see any Feedback Instructions that your instructor has provided. Click CONTINUE once you have reviewed them.

From the feedback screen, you can watch the video and add time-stamped comments, overall comments, and fill out a rubric (if your instructor enabled a rubric for peer review).

Follow the instructions provided as to the type and quantity of feedback you are to provide. When you click a marker or to add a comment, the video will automatically pause so that it can timestamp your feedback.

Be sure you are on the Comments tab on the right. If you previously added comments, those will be visible with their time stamps. If your instructor has enabled open peer review, you can see any comments left by others in the class. You may also see AI generated comments if those have been enabled.

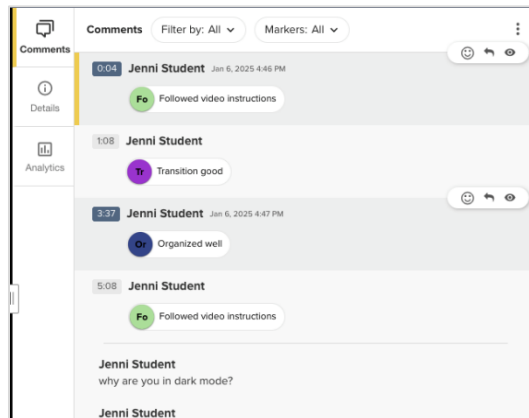

- You can use the markers (if assigned) to make quick notes which will be timestamped to the location in the video. You can simply click the marker and hit enter or the blue arrow. Or add an additional comment and hit enter or the blue arrow.

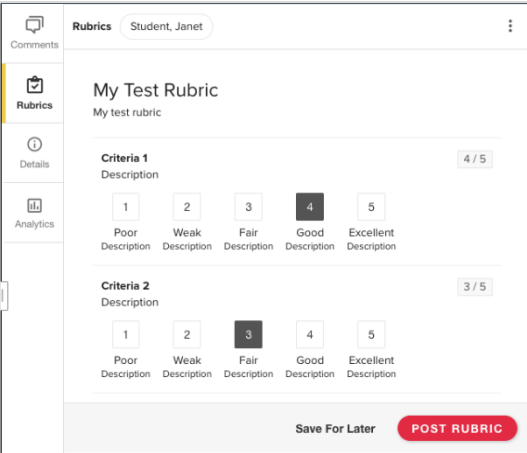

- You can Add a comment using emojis and text, video, or audio which will be timestamped to the location in the video.

- You can also react or reply to other comments if those are visible. Hover or click on the comment to see those options.

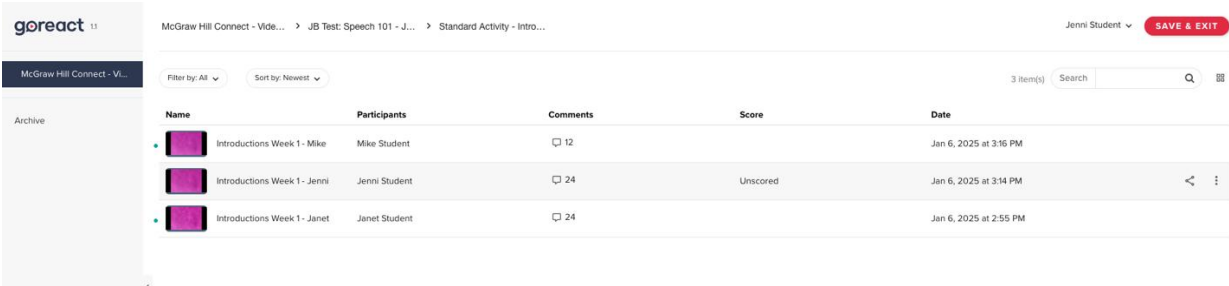

- Your instructor may assign a Rubric to be filled out as well. Click the Rubrics tab to view and complete it. Be sure to POST RUBRIC so it is visible to your instructor.

When you are finished, Click BACK to return to the main activity screen to select another video to review.

Click Save & Exit to return to Connect when you are finished.

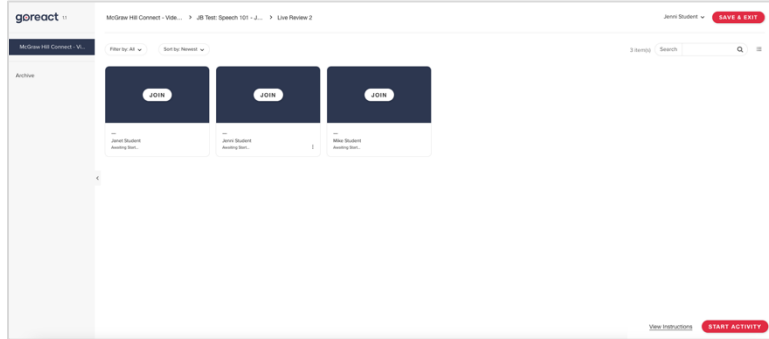

Live Review

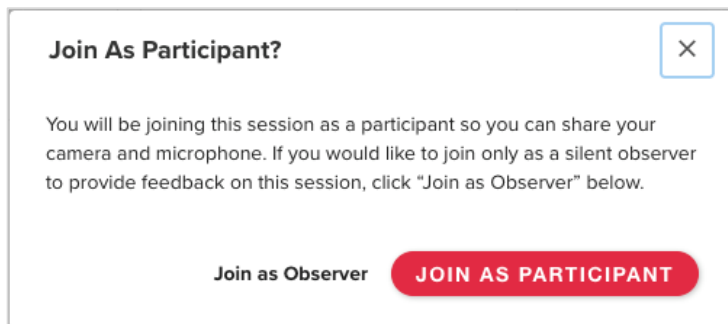

If your instructor has set up the assignment with a “Live Review”, it allows the recording to be live streamed and joined by other participants to comment.

If you are the presenter, click **START ACTIVITY** or **JOIN** the tile with your name if your instructor already created your link.

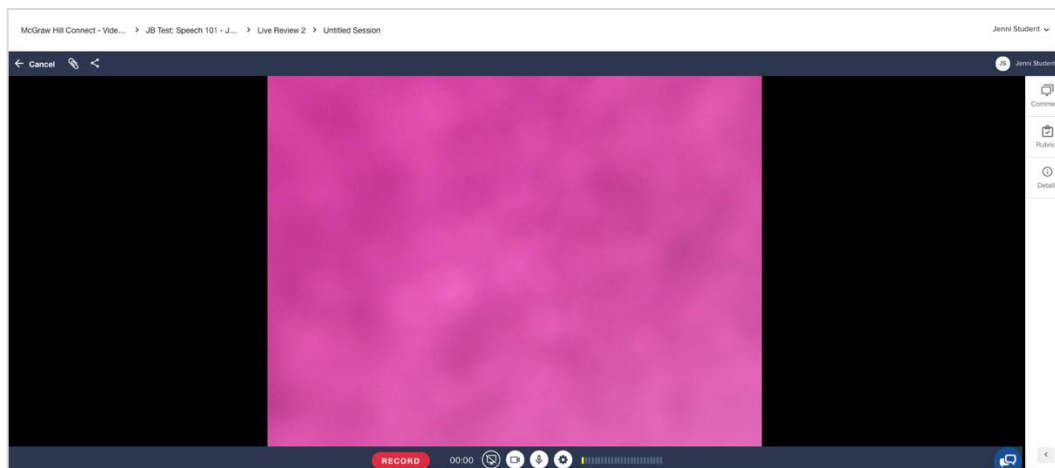

If you are a participant, **JOIN** the tile with the student’s name you are viewing.

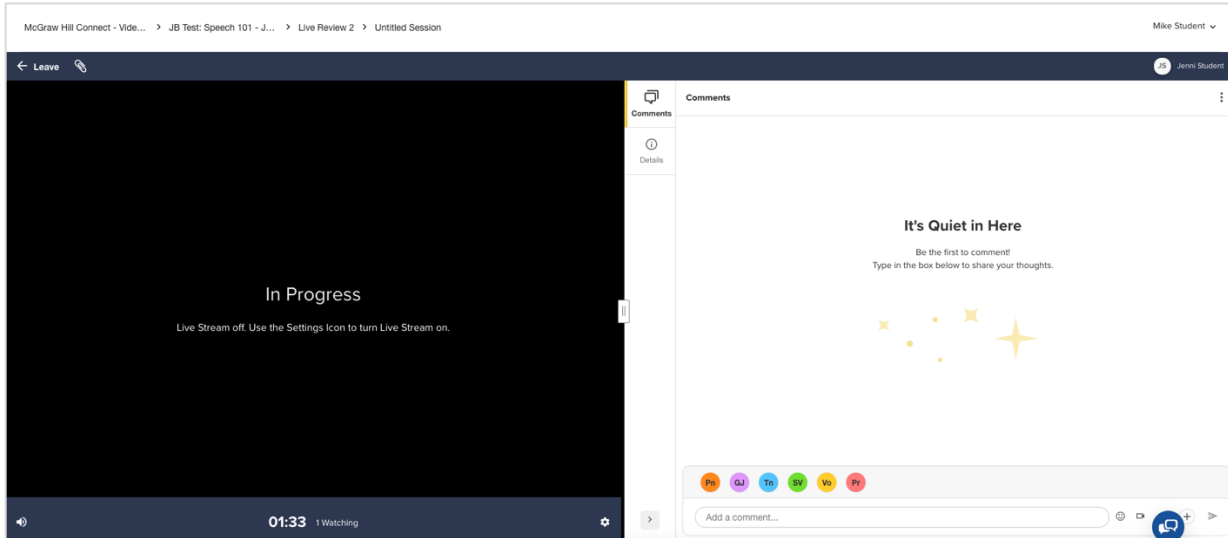

You may be prompted to select if you are joining as an Observer or **PARTICIPANT**.

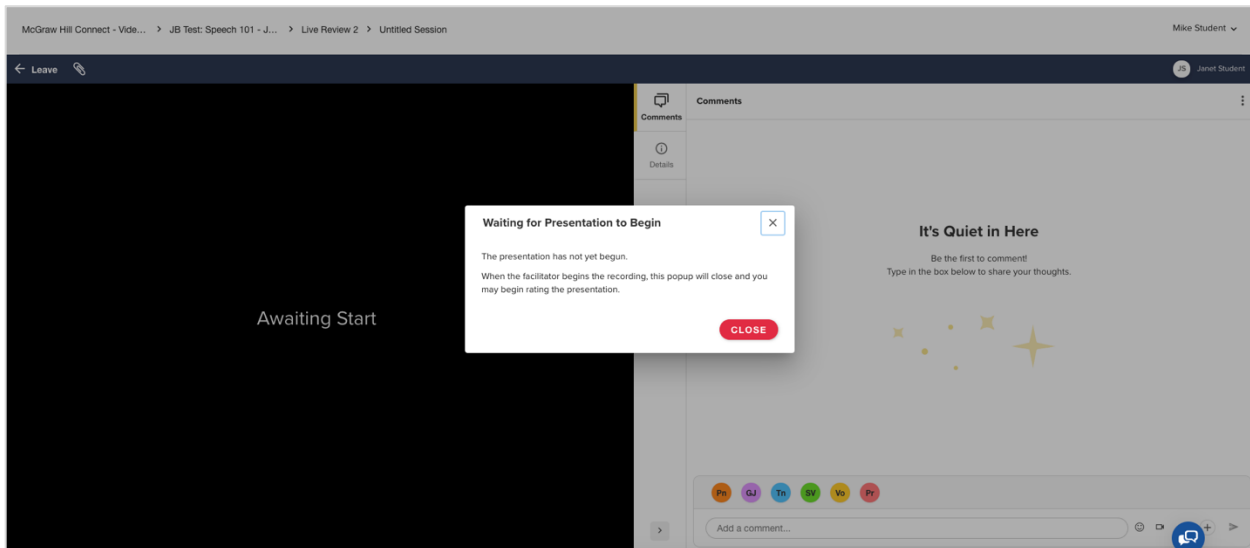

If you are the **PARTICIPANT**, you will click **RECORD** and do your presentation, stopping and submitting when you are finished.

If you are an Observer and join a session in progress, you will have a view of the presenter and/or their screen and be able to comment as they are presenting. Add your comments and click Leave to exit the session.

If the session hasn't begun yet, you will see this screen. Wait for the presentation to begin or click CLOSE to return to the main activity screen and come back later.

AI features

GoReact's AI Assistant will take the audio from the video submitted and create a time-stamped, searchable transcript as well as analytics related to filler words, pauses, etc. In addition, your instructor can enable AI markers and/or AI generated comments for those behaviors. These items are all available within three minutes of submitting the video. Your instructor may, however, choose to delay this feedback.

You can identify comments made by the AI Assistant as they will be labeled as such.

The screenshot displays the GoReact interface. On the left is a video player with a blurred pink background. On the right is a sidebar with a 'Comments' tab selected. The comments list includes:

- GoReact AI Assistant** (0:11): **Transitions - Improve**. Comment: "You might consider using a cause and effect transition to explain why you're taking the course. For instance, you could say: 'As a result of my interest in communication, I am taking this course as my communication elective, and I hope to learn about presenting.'"
- Janet Student** (0:16): Comment: "I think this is a good choice for an elective."
- Jenni Student** (0:16): Comment: "haha...same!"
- Janet Student** (0:23): Comment: "I definitely need some help presenting!"
- Jenni Student** (0:23): Comment: "Me, too!"
- Jenni Student** (0:24): Comment: "Nice intro :)"

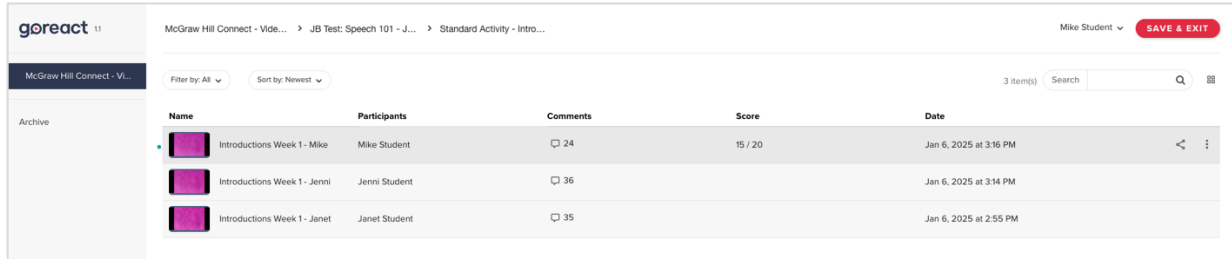

Reviewing Your Feedback

You can return to your GoReact assignments at any time to review feedback left by your instructors or peers.

Go to the results page for the class in Connect. You can see what items are scored and click open the arrow to view your attempts. Click the attempt to proceed to GoReact.

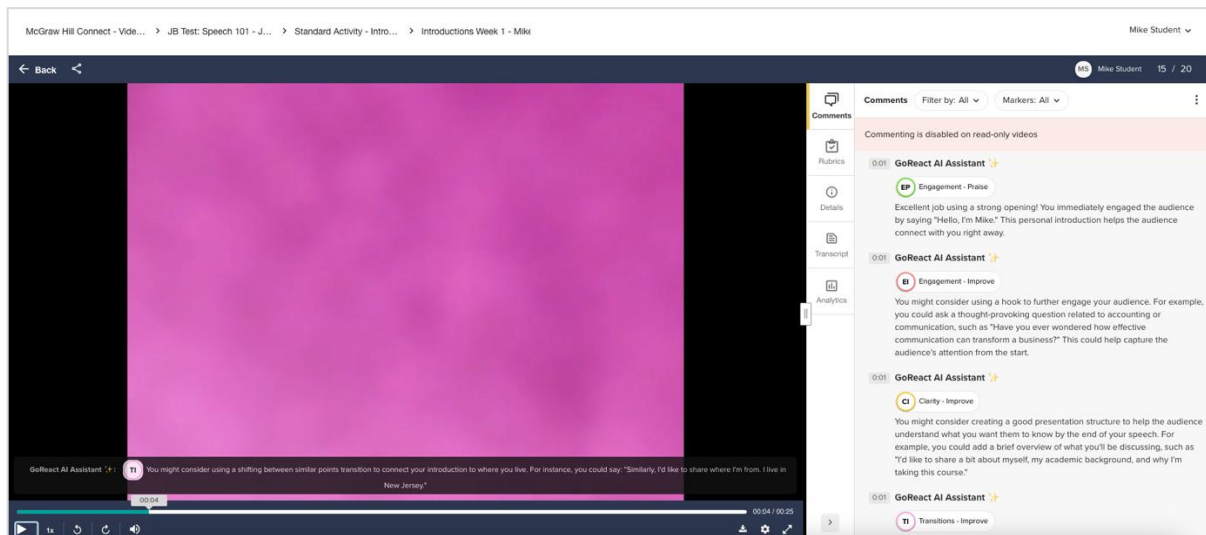

RESULTS		JB TEST: SPEECH 101 - JB TEST SPEECH 101 2025		
2 submitted assignments				
Standard Activity - Introductions	75%	75 / 100 points	1 attempt	
View attempt 1	75.00%	75 / 100 points	01/06/2025 at 3:16 PM PST	
Stimulus Activity - Tell a Story	0%	0 / 100 points	1 attempt	

Click on your video to review feedback, rubric scores, etc. Remember, you may see other students' videos if this was a peer review activity. You won't be able to see their scores, but you can review your comments and comments others made if it was an open review.

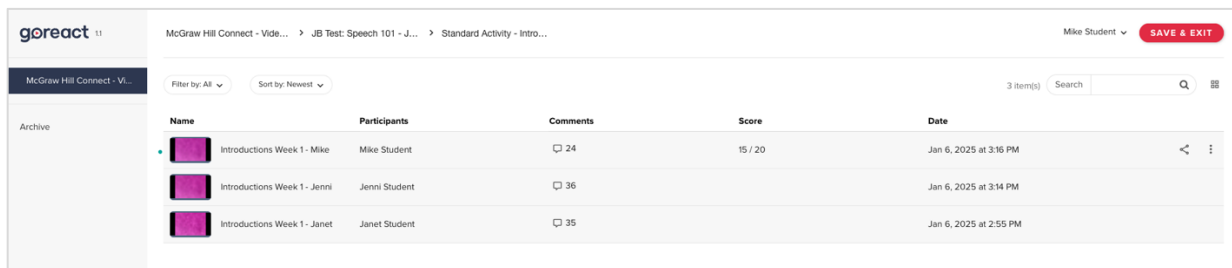

Note that once the due date has passed, further commenting will be disabled.

You can review any of the tabs to view comments, rubric scores, activity details, the transcript of your video, or the analytics.

Click Back to return to the main activity screen. You can review other videos if they are available or click SAVE & EXIT to return to Connect.
