

## Writing Assignments in Connect and Connect Master 2.0

McGraw-Hill's Writing Assignment delivers a learning experience that helps improve their written communication skills and conceptual understanding. As an instructor, you can assign, monitor, and provide feedback on writing more efficiently, and grade the Writing Assignment from within McGraw-Hill Connect® and McGraw-Hill Connect® Master.

Writing Assignment is integrated into Connect and Connect Master 2.0 as an assignment type beginning January 2020.

There are three levels of functionality. The level selected for a title is dependent on the course needs. Here is an example of the Writing Assignment Premium with auto-scored prompts. Descriptions of each level can be found on the second page of this flyer.

# Writing Assignment Levels

There are three configurations (levels) of the Writing Assignment. Contact your McGraw-Hill Learning Technology Representative to learn your product's configuration.
