WEEK 3

**Practice** 

## Pi, Circumference, and Diameter: Lesson 1

<b>Complete</b> each statement about the properties of circles. Write <i>center, chord, circle, congruent, diameter,</i> or <i>radius</i> in each blank.	
1.	A plane figure is formed by all the points that lie the same distance from a center point. The figure is a
2.	A line segment has one endpoint on a circle and the other endpoint at the center of the circle. The line segment is a
3.	A line segment has both endpoints on a circle. The line segment is a
4.	A line segment has both endpoints on a circle. It passes through the center of the circle. The line segment is a
5.	Two line segments are radii of the same circle. The line segments must be
6.	A line segment is the longest possible chord in a circle. The line segment is a
7.	A line segment is a diameter of a circle. The line segment is twice the length of a of the circle.
8.	Two points lie on the same circle. Both points are the same distance from the of the circle.
9.	A chord divides a circle in half. The chord is the of the circle.
10.	A line segment is a radius of a circle. The line segment is half the length of the circle's

## Pi, Circumference, and Diameter: Lesson 2

**Determine** the circumference of each circle. Use 3.14 for  $\pi$ . Round to the nearest whole unit.

**Determine** the diameter of each circle. Use 3.14 for  $\pi$ . Round to the nearest whole unit.

WEEK 3

Practice

## Pi, Circumference, and Diameter: Lesson 3

**Determine** the area of each circle. Use 3.14 for  $\pi$ . Show your work.

Practice

## Pi, Circumference, and Diameter: Lesson 4

**Solve** each problem. Use 3.14 for  $\pi$ .

- **1.** A paint can has a circular lid with a radius of 3 inches. What is the area of the lid?
- **2.** A circular bracelet has a diameter of 8 centimeters. What is the circumference of the bracelet?
- **3.** A circular patio has a radius of 6 feet. What is the distance around the patio?
- **4.** A circular baby pool has a radius of 2 meters. How much space on the ground does the baby pool cover?
- **5.** The diameter of a dinner plate is 25 centimeters. The diameter of a dessert plate is 20 centimeters. What is the difference in the circumferences of the two plates?
- **6.** The circular broadcast signal for a radio station reaches a radius of between 10 and 12 miles. What are the least and greatest number of square miles the broadcast covers?
